## EXPERIENCE

### **SkiBuds, Remote — Jr. Full Stack Developer**

JUNE 2020 - PRESENT

Developing advanced user settings such as changing display name, photo, and other information. Primarily use React Native and Firebase technologies.

### **The Hazy Daizy, Colorado — WordPress Web Developer**

MAY 2018 - PRESENT

Maintain the WordPress website. Create new layouts and content based on SEO research. Manage white hat backlink SEO marketing campaigns.

### **Irie Vibez Blog, Florida — WordPress Web Developer**

AUGUST 2013 - JULY 2017

Managed and developed the WordPress site that powered this digital media company in Central Florida.

### **Undercover Motorsports, Florida — Web Developer**

JULY 2012 - MARCH 2014

Managed the digital marketing for dragster builder company. Created a build-a-dragster application that allowed the customers to spec out their dream racecar and initiate the sale process with an accurate quote. This application was built with the LAMP stack and Wordpress plugin development.

## EDUCATION

### **Actualize Coding Bootcamp, Remote — Software Engineering**

JULY 2020 - NOVEMBER 2020 [PROJECTED]

13 week bootcamp via remote live classes. Curriculum focuses on learning to think like a software engineer more so than a coder. We use ruby in the backend and the Vue.JS library to create beautiful user interfaces.

### **Team Treehouse, Online — Full Stack Javascript Techdegree**

JUNE 2020 - OCTOBER 2020 [PROJECTED]

A project based approach to learning full stack javascript. We create powerful applications using node.js, REACT, Express, and AJAX.

## TECH

HTML5, CSS, JavaScript, ES6, React.Js, React Native, node.Js, PHP, Ruby, Ruby on Rails, GitHub, Git, VSCode, Expo CL, Terminal, Bash, NPM, MySQL, Vue.js, Express.js, LAMP stack, MERN stack, Firebase, Wordpress, DNS Management, Apache Server, Adobe Photoshop, Adobe Illustrator, Zoom, Slack

## PROJECTS

### **Knock Down Dice Game — HTML5 / CSS3 / JS**

Created a dice game where multiple players generate the roll of two dice. The game keeps score, checks for the roll of a knock down number, and determines the winner of the game.

## Certifications

### **Responsive Web Design freecodecamp.com - 7/2020**
